## SUMMARY

A passionate and motivated  B .Tech Computer Science student at JNTU-GV, aspiring to become a software engineer. Proficient in frontend development using React.js, Tailwind CSS, and experienced in problem-solving and algorithmic thinking. Enthusiastic about learning new technologies, building efficient and scalable applications, and contributing to innovative projects. Seeking an internship opportunity to apply my technical skills, enhance my knowledge, and gain real-world industry experience.

## EDUCATION

**JNTU-GV,** B.Tech in Computer Science                                          Nov 2022 – Aug 2026

- GPA : 8.22/10.0

## EXPERIENCE

**Octanet Services / OIBSIP – Web Development Internships**          June 2024 – July 2024

- Built basic projects like To-Do List, Calculator, Landing Page using HTML, CSS.
- Gained hands-on experience with responsive UI design.

**Repository :** [Github repository](#)

**GA Digital Solutions** – Full Stack Developer Intern          May 2025 – Present

- Led the Test Execution module in a Proctored Online Test Platform.
- Built React + Tailwind frontend for MCQ, subjective, audio/video & coding questions.
- Implemented real-time webcam proctoring & evaluator dashboard.
- Developed backend APIs using Django REST Framework & PostgreSQL.

## PROJECTS

**Currency Converter App**                                          Nov 2025
Python (Tkinter, Pandas, API)

- Real-time currency conversion with user-friendly UI.

**Repository :** [Github repository](#)

**Genius Gateway Event Website**                          Feb 2025 – March 2025
React, Tailwind CSS, MongoDB

- Designed & deployed technical event website with registration, schedule & leaderboard.

**Website :** [geniusgateway2k25.vercel.app](#)

**Proctored Online Test Platform**
React, Tailwind CSS, Django, PostgreSQL

- Secure test-taking UI, section-based timer, auto-save answers, proctoring logs.
- Admin dashboard for evaluating responses.

Repository : github backend repo , github frontend repo

## TECHNICAL SKILLS

**Programming Languages**: C, C++, Java, Python
**Web Development**: React.js, Tailwind CSS, node.js, Django, HTML, CSS, Java Script
**Data Structures & Algorithms**: Problem-solving, Competitive Programming
**Databases**: MySQL, Db sqlite, PostgreSQL, MongoDB
**Version Control**: Git, GitHub
**Tools & Platforms**: VS Code, Linux, Postman

## INTERESTS

Conducting workshops , Coordinating technical events , DSA Problem solving

## ACHIEVEMENTS AND CERTIFICATES

AWS certificate in Cloud Computing

Certifications from Web Dev Internships (Octanet, Apexplanet, OIBSIP)

Secured an NPTEL certification with a Silver rank in Introduction to Internet of Things

Gate score : 410
